CHIROPRACTIC AND FUNCTIONAL MEDICINE

I've always had a background in customer service, whether it be as a customer service rep, food service or patient services. I enjoy helping people. I've had various job titles in my life but none were more important to me than being a Chiropractic Assistant. I am so blessed to have found a job that I absolutely love! I love knowing that I can share my knowledge and possibly change somebody's life. There is nothing more fulfilling than watching patients get their lives back!

When I came to work for Brauchla Family Chiropractic, I really didn't know much about chiropractic care. Through training, guidance and knowledge from the doctors, I have learned so much. Chiropractic care is THE most amazing thing and I share it with anyone that will listen. Being adjusted by the doctors on a regular basis has made my life

happier and healthier. Seeing chiropractic care change my family members lives drives me to share their success stories often. Chiropractic care will be a part of our lives forever!

Being a Chiropractic Assistant, licensed by the state of Indiana as a Chiropractic Radiographer is more than just a job title and license to me. It means so much more. It is a way for me to be involved in changing our patient's lives and I get to help make the doctors lives just a little easier. The doctors, chiropractic assistants and patient at Brauchla Family Chiropractic are all part of a team. We work together to make everyone's lives healthier, doing it naturally. It is a team that I'm proud to be a member!! We're changing the quality of healthcare and changing lives. Go team!
