

# **B R A U C H L A** CLINIC

CHIROPRACTIC AND FUNCTIONAL MEDICINE

I have always worked in customer service and the healthcare field. Helping others is my passion. I graduated in 2005 with a degree in Applied Science, and have worked as a Medical Assistant until joining the Brauchla Team as a Chiropractic Assistant in June of 2019.

My very first day with the Brauchla's I noticed there was something different about this place... I saw the compassion every team member has with each patient. Here you are not just a patient, you are family. We are here to educate you and help you maintain a healthy lifestyle. Chiropractic care is not just about the aches, and pains. It is finding the root of where the problem begins, repairing it, and maintaining it to live a healthy life.
